

## Competition Subjects: Historical Record

Listed below is a historical record of the competition subjects for the Photography Club (PPC) monthly competitions. Prior to the 2006-2007 PPC competition year, PPC held separate competitions for both Slide format images and Print format images. Beginning with the 2006-2007 PPC competition year, while the Print format image competition was continued, the Slide format image competition was replaced with a Digital format image competition. Beginning with the 2007-2008 PPC competition year, the current practice of holding Digital format image competitions (exclusively) for all months except March and October (which are exclusively Print format image competitions) was begun.
